PART 1 REGISTERED NAMES

This part of the search will locate pertinent names registered in Canada. Most are found on the Nuans™ database. However, this database is incomplete with respect to names registered in Quebec and British-Columbia. Moreover, our search provides more citations and information than the Nuans™ system on Federal corporations and Trade-Marks.

The extent of this search and the data examined may vary in different provinces and in accordance with the type of search chosen.

SEARCHES ON GOVERNMENTAL DATABASES

Database	Data examined	Jurisdiction
NUANS™ PRE-SEARCH	Names and trade-marks registered on the NUANS™ system.	Provincial/ Federal
FEDERAL	Names of corporations and businesses governed by federal legislation.	Federal
TRADE- MARKS	Trade-marks listed on the Canadian Trade-Marks Register	Federal
QUEBEC MIRE	Names of individuals, partnerships and legal persons listed on the MIRE Register. Marque d'or is the first search house to offer an english translation of the activity codes attributed by the Registrar of Enterprises with respect to the registrants declared activities. In certain cases the activity code assigned does not correspond exactly to the declared activities, however, it will provide you with a fairly accurate idea of the type of business being operated.	Quebec

PART 3 DOMAIN NAMES

A domain name is the expression in ordinary words of an electronic address belonging to an Internet user. A typical domain name usually takes the following form:

http://www.yahoo.ca
|
|_____ generic top-level domain
|
|_____ domain name (distinctive part)
|
|_____ World Wide Web
|_____ HyperText Transmission Protocol

The domain name is granted by one of the non-governmental regulatory agencies grouped according to the following regions:

Territory	Name	Registrar	Usual primary domain
Canada	Canadian Internet Registration Authority	cira.ca	.ca
International	ICANN (Internet Corporation for assigned names and numbers)	register.com or netsol.com	.com, .org, .net

HALF CENTURY INC.

Domain names

Due to current Cira restrictions, only the identical form of the proposed name has been searched within the ca domain
